YENGWE**

**CONSTRUCTION**

## **Ngubo Yengwe Construction - Overview**

Ngubo Yengwe Construction was established in 2016 and has been growing exponentially since then in the construction industry. Ngubo Yengwe Construction is led by young visionary energetic entrepreneur who has a burning desire to grow the business and be a force to be reckoned in the construction industry of Eswatini and beyond.

Remaining true to its founding principle of striving for excellence, Ngubo Yengwe has combined the vision of the entrepreneur, the knowledge of experts, the commitment and business expertise to develop its core strengths, vision and mission. With the commitment and effort of its employees and professional management, Ngubo Yengwe has achieved the standing of being the most progressive and fast-growing enterprise in Eswatini.

Ngubo Yengwe future plans and growth matrix are strategically designed to strengthen our footprint in the country for growth opportunities. The commitment to corporate social responsibility at Ngubo is evident in a wide variety of areas including the quality and safety of products, environmental, health and safety initiatives, ethical manufacturing programs, philanthropy initiatives, community relations, human resources, corporate governance and the code of conduct.

Ngubo Yengwe ensures that its business is managed in compliance with business ethics as defined through its policies. We believe in uplifting the society with collective efforts and social responsiveness.

### **Vision**

To be one of the top ten indigenous outstanding construction companies in Eswatini.

## **Mission**

To provide quality construction and on time delivery to meet customer satisfaction, inspiring confidence and respect through the highest levels of service.

## **Our Philosophy**

Our goal is to also support the development of the communities in which we operate. We ensure that as our business grows, the communities around us also grow. We firmly believe that a successful business is a responsible business and long-term growth for stakeholders goes hand-in-hand with our wider commitment to our communities, employees and the environment.

## **Our Objectives**

- ✓ To maintain a good reputation within the industry
- ✓ To maximize the growth of the firm while maintaining an acceptable level of profit for shareholders.
- ✓ To ensure growth of turnover and earnings
- ✓ To successfully complete projects to client's satisfaction
- ✓ To employ realistic methods of project management which attempt to concentrate and improve integration of specialist roles in the construction industry.

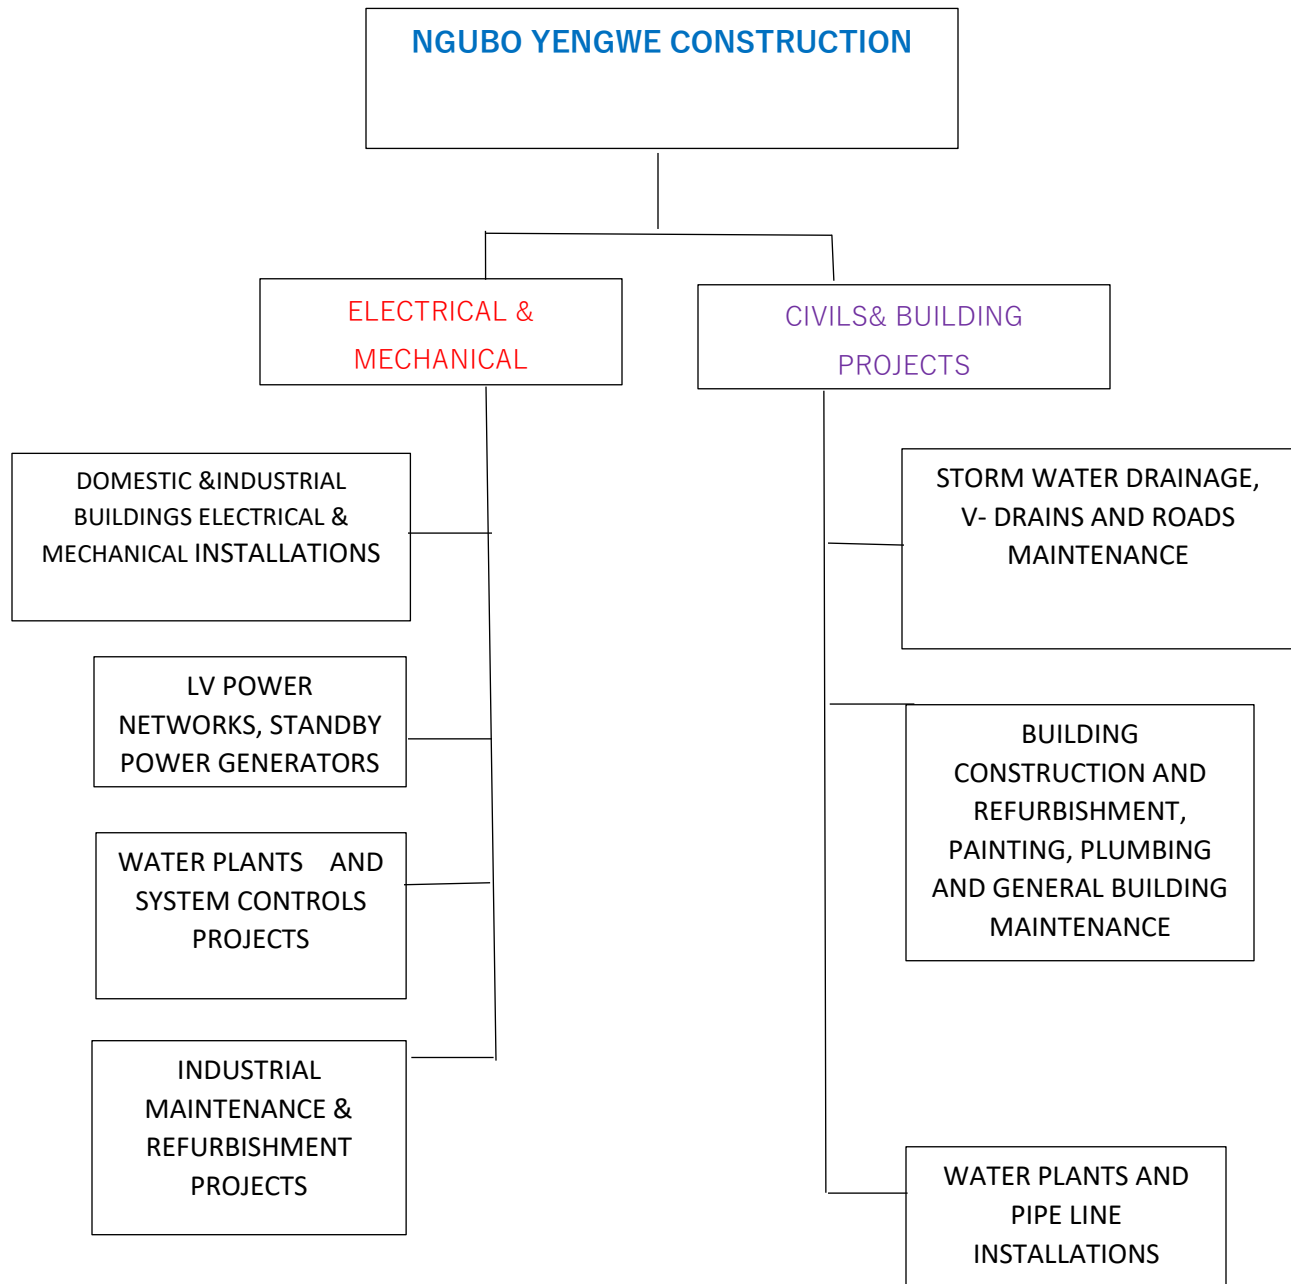

## **Our Methodology**

The main components of Ngubo Yengwe Construction's effective projects approach are based on the following sound management principles;

- Adequate integration of stakeholders
- Genuine understanding of our client's scope and belief
- Detailed planning
- Effective time management
- Quality Control
- Cost Control
- Communication
- Responsible and sound procurement
- Risk Management

## SERVICES OVERVIEW

## **Shareholder**

We practice communicating the requisite information on time and maintaining transparency with our shareholders. Initiatives taking place in these various areas form an integral part of our wider commitment to building a better society through corporate citizenship, good governance practices, improved sustainability, better risk management and doing business to the highest ethical standards.

## **Our Contributions | Social Responsibility**

As one of the fastest growing business enterprises of Eswatini, we acknowledge our responsibility towards the communities we operate in which are impacted through our work. We recognize that we have a unique and important role to play in promoting sustainable growth and making a positive impact on the local economies.

## **Workplace**

Nothing is more important than the health and safety of our work force. This is more than a statement, it is a mindset that governs our actions and decisions. Ngubo Yengwe has made a commitment to transform its businesses for the benefit of future generations. Fulfilling this promise requires the highest standards of leadership in all aspects of our business in particular health and safety. Our ultimate goal is to run an accident and injury free operation.
